## Report

**Industrial Visit – R.S. Engineering, MIDC, Ahmednagar**

- 1. Event Title:** Industrial Visit for S.E & T.E. Mechanical Engineering students at R.S. Engineering, MIDC, Ahmednagar
- 2. Event Date:** 10/03/2022
- 3. Event Conduction Duration:** 02.00 PM to 04:00 PM
- 4. Event Venue:** R.S. Engineering, MIDC, Ahmednagar
- 5. Objective of Program:**
  1. To prepare graduates to quickly become productive upon entering the workforce. Therefore industrial visit make students understand the subject to its core and its deeper practical experiences in real field situation.
  2. To prepare students for the technical challenges they might face in workplace
  3. To experience real world situations in their chosen careers.
- 6. Significance of Visit-**

Forging is one of the oldest & widely used manufacturing techniques for complex & strengthful object. This process is important to manufacturing of different components of IC engines, automobiles, machine tools etc. hence it is part of study in theory of Manufacturing Processes.
- 7. Observations & Discussions-**

Students leant the practical aspects related to subject matter & understood the forging process in detail. Students also gained knowledge about die preparation, die corrections & die inspection.
- 8. Output of Program:**

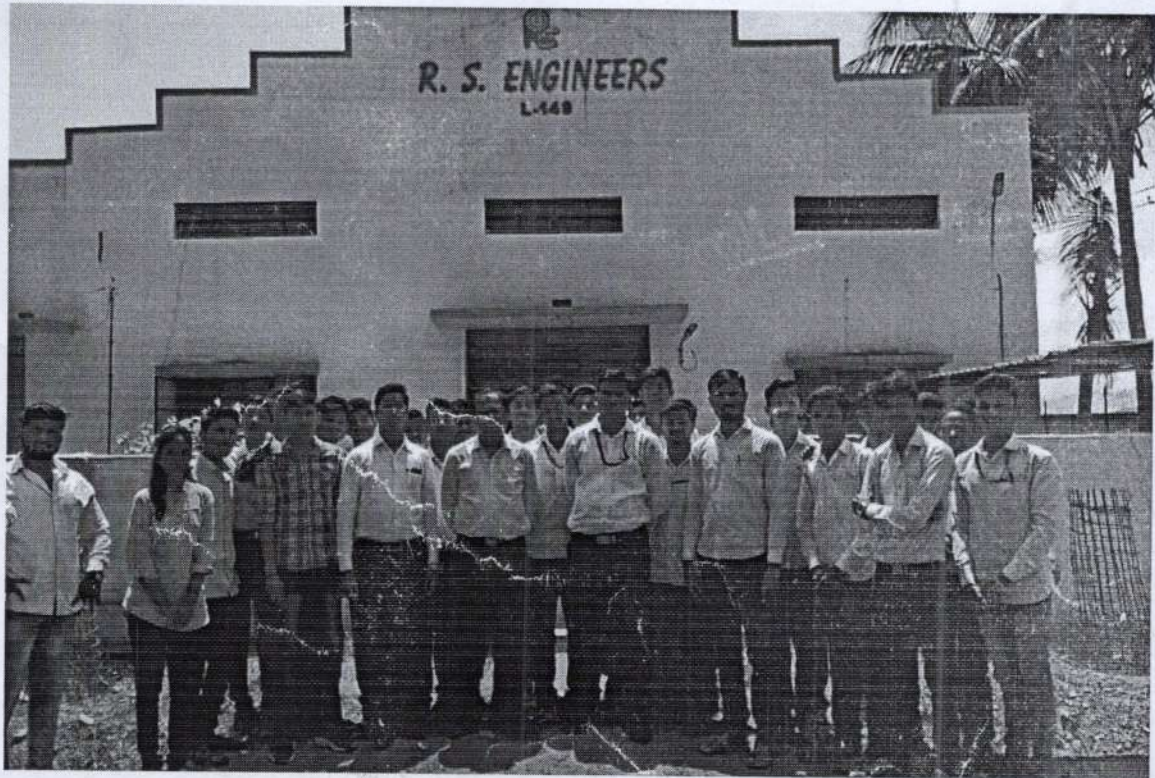

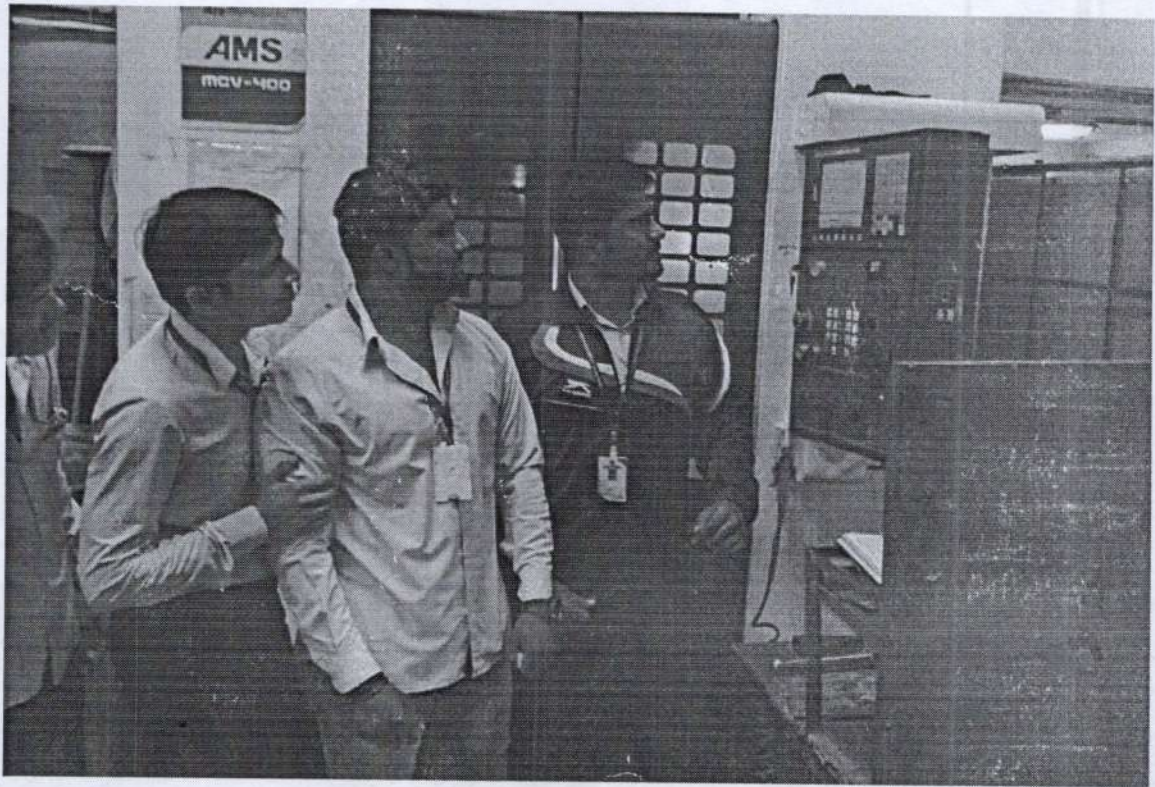

Industrial visit gave students insight into their future professions by giving them the opportunity to observe industrial processes in operation. In addition to benefiting the student, industrial visits also benefit stakeholders by bringing them into contact with prospective employees.

## MEMORANDUM OF UNDERSTANDING

### Digital Placement Training Cell

The Memorandum of Understanding ("MOU") is executed on this 7<sup>th</sup> day of April 2022

### **Between**

#### **Pluto Ventures**

Plutozy is a Pune-based & COEP incubated company that helps engineering colleges to digitalize & strengthen their **Training & Placement Cells**. Plutozy is a digital training and placement platform which aims at coaching engineering students for current placement opportunities in the corporate landscape. Plutozy provides engineering students with an infrastructure that not only guides the freshers in their recruitment process but also grooms them on their strengths and weaknesses with the help of periodic assessments and meticulously drafted development paths. Working closely with their colleges, the platform ensures that the students are well groomed for the entire hiring process and requisites for the same.

Plutozy web-app is exclusively designed to take care of placement training activities & evaluate individual student's performance against the available market opportunities. It consists of both student & college portals. Students can practice recruitment drive activities, appear for mock interviews & upskill themselves through various certification courses. Whereas, colleges can monitor the activities & performances of all students. This enables colleges to take data driven decisions on placement training.

&

#### **Vishwabharati Academy's College of Engineering ( VACOEP)**

Vishwabharati Academy's College of Engineering and Polytechnic (VACOEP) is a well-known premier institution established in 2007 by a group of dedicated and visionary educationists. The institute is placed on a hill top overlooking the picturesque view of the valley around and about 6 km away from the city center having 21.5 landscape areas.

The college offers Undergraduate Programs in Civil Engineering, Mechanical Engineering, Mechanical Sandwich Engineering and Computer Engineering.

The Postgraduate Programs offered by college include Mechanical and Computer Engineering.

The Polytechnic run by VACOEP Ahmednagar offers courses in Civil, Mechanical and Electrical Engineering. VACOEP offers the best quality and industry based Technical Education to its students. The students are not only trained academically but their aptitude, soft skills, communication skills and total personality development is worked upon. As a result, they can face the challenges in the industry

## **Report**

**Industrial Visit – Novela Engineers, MIDC, Ahmednagar**

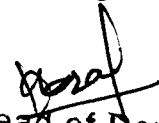

- 1. Event Title:** Industrial Visit for S.E Mechanical Engineering students at Novela Engineers, MIDC, Ahmednagar
- 2. Event Date:** 10/03/2022
- 3. Event Conduction Duration:** 10.00 AM to 12:00 PM
- 4. Event Venue:** Novela Engineers, MIDC, Ahmednagar
- 5. Objective of Program:**

1. Technical Proficiency – Graduates will be well versed in both traditional welding technologies, as well as the newest advancements in high-energy density and specialized welding processes. Math and science will be cornerstones for experimenting, testing, data analysis and problem solving with commitment to quality, timeliness, and continuous improvement.
2. Interpersonal Skills – Graduates will be effective in their communication to ensure that they are relaying a clear message, will respect the viewpoints of others, and will be effective listeners when working as a member of a team.
3. Passion for the Trade – Graduates will be actively involved in welding engineering technology and find an area of expertise related to: weldment design; material selection; welding procedure development and qualification; welding process selection and implementation; welding capital equipment development and system integration; weld quality monitoring and process control; destructive and non-destructive examination; welding automation and offline-programming; or weld consulting.

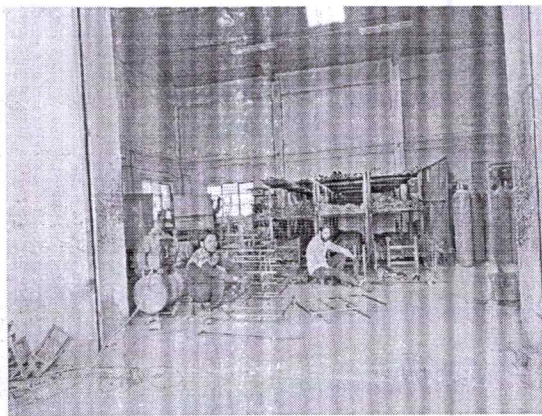

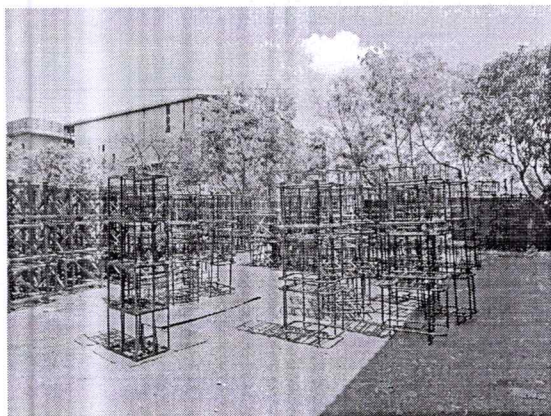

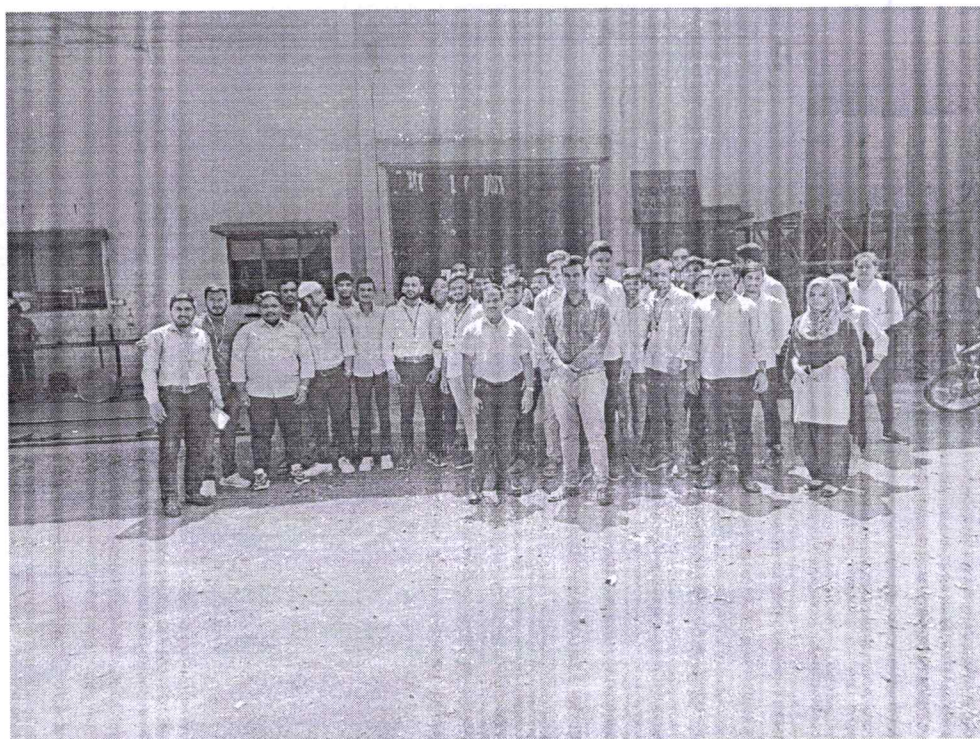

## **6. Output of Program:**

1. Apply knowledge of industrial safety standards to both field and factory environments.
2. Demonstrate knowledge in welding, welding automation, principles of fabrication, and process integration.
3. Design welding systems, components, or processes meeting specified needs for broadly defined engineering problems appropriate to the welding discipline.
4. Apply knowledge, techniques, skills and modern tools of mathematics, scientific principles and methodology, engineering, and technology to analyze and solve manufacturing problems with economic, technical, organizational, and design solutions.

**Industrial Visit – Rudra Precision, MIDC, Ahmednagar**

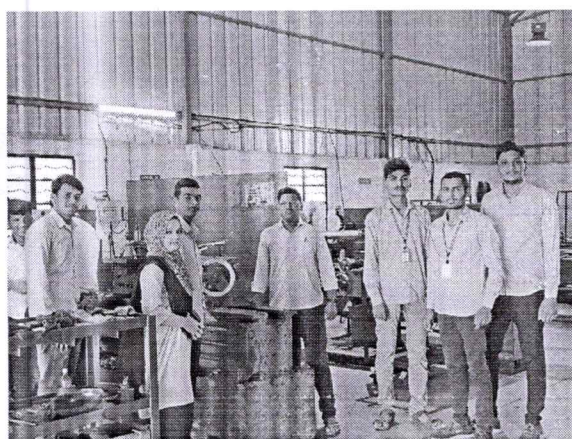

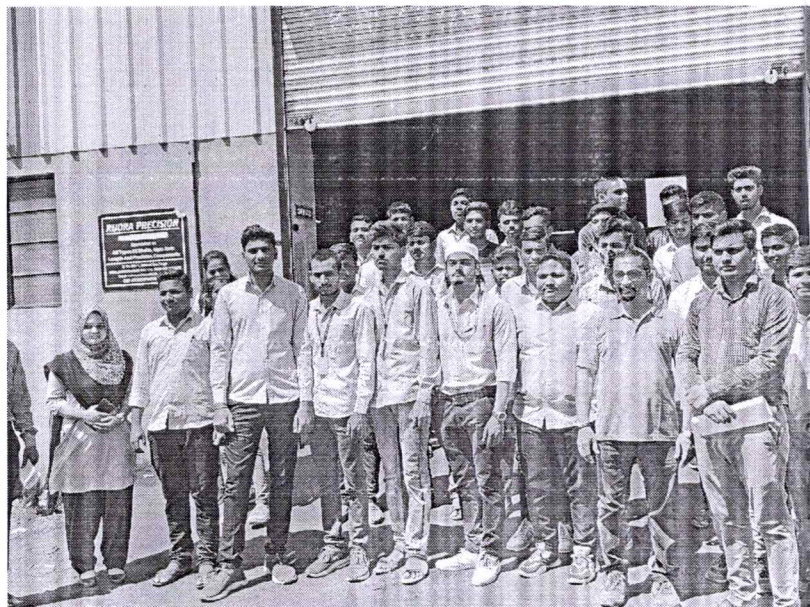

- 1. Event Title:** Industrial Visit for S.E & T.E. Mechanical Engineering students at Rudra Precision, MIDC, Ahmednagar
- 2. Event Date:** 10/03/2022
- 3. Event Conduction Duration:** 12.00 PM to 02:00 PM
- 4. Event Venue:** Rudra Precision, MIDC, Ahmednagar
- 5. Objective of Program:**
  1. Industrial visit is a vital part of engineering courses. It helps to bridge the gap between classroom and the real field world. Students are benefited to learn about “real life” examples of business and engineering management.
  2. To prepare graduates to quickly become productive upon entering the workforce. Therefore industrial visit make students understand the subject to its core and its deeper practical experiences in real field situation.
  3. To prepare students for the technical challenges they might face in workplace
  4. To experience real world situations in their chosen careers.
- 6. Output of Program:**

Industrial visit gave students insight into their future professions by giving them the opportunity to observe industrial processes in operation. In addition to benefiting the student, industrial visits also benefit stakeholders by bringing them into contact with prospective employees.

Subject- Letter of Appreciation

Respected Sir,

Just a note to congratulate you on the outstanding lecture you delivered today on "Mechatronics & PLC Programming" to Third Year Mechanical Engineering Students.

I felt you addressed the subject with openness, honesty, & sensitivity. I believe many of students now understand the seriousness of the topic & how to deal with it much better than before. I especially appreciate the examples you gave & the point of law that you applied to each. I wish you success in your effort to educate all of our students in work place.

There is no doubt that you will be called upon to present again. I wish you the very best of luck. We all are looking forward to another chance to hear you.

Thanking you,

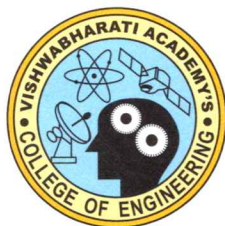

Regards

**(Special instructions to students:**

- 1) Write down the daily activity on the same day
- 2) Make note of the important actual activity only.
- 3) Summarize at the week-end.
- 4) Add extra sheets if needed for daily or weekly report.)

Week 1: From 21/5/19 To 27/5/19

### Expected Work:

- Study of organization chart of industry/plant with responsibilities of the different posts
- General Study of industry, its location, its history and its product range, its size, number of employees, its turnover etc.

Day	Activities carried out
1	Introducing all machines m/c CNC m/c, vmc m/c, CNC grinding m/c, milling m/c Knurling m/c.
2	Learn about measuring instrument vernier caliper, Digital vernier micrometer
3	collect the information of all machines and job type
4	Understand the job diagram and dimension. Learn about the machine code.
5	operating CNC m/c. Help to operator for machine operating. Understand the m/c programming and setting.
6	operating CNC m/c operated for basic step measure the job dimension

Weekly summarization of the above activities:

Signature of Student: Amal Singh

Signature of Industrial Supervisor: Rajay

Week 2: From... 28/05/19 ..... To... 3/06/19 .....

Expected Work: Study of layout and specifications of major machines, equipment and raw materials/components used.

List the Sections of Industry visited and list the major machines, equipment and raw materials etc. studied:

Day	Activities carried out
1	operated cylindrical Grinding m/c on this machine grinding the workpiece tool It is also auto machine. This are machine
2	observe the cnc turning machine In this machine turning on workpiece cnc turning machine process used to cylindrical parts where the cutting tool
3	observe the grinding machine on this machine the grinding on the workpiece that is manually machine operate by skill operator.
4	observe the cnc milling machine on this machine used to make a keyway on the workpiece
5	milling section observe the manual milling m/c. operate this machine with skill operator this machine are multipurpose machine.
6	observe drilling m/c It is machine which makes a circular hole in the size job by removing volume.

Weekly summarization of the above activities:

Signature of Student: Amul D.

Signature of Industrial Supervisor: Sanjay

Week 3: From 4/06/19 To 10/06/19

Expected Work: Study of production processes along with production planning and control procedures.

List the Sections of Industry visited and list the major production process, and products for which planning and control procedures etc. are studied:

Day	Activities carried out
1	observe the benchdrilling machine It is also called table drilling m/c there are single spindle vertical drilling machines which are mounted on table tops.
2	observe radial drilling machine is a geared drill head that is mounted on an arm assembly that can be move around the to the external.
3	observe tapping machine which is used to the tapping in the workpiece after drilling in tapping operation is completed. there are many types of tapping.
4	quality section observed quality section there is checking the complete workpiece there is all instruments work piece
5	There are observe the knurling machine which is knurling on cylindrical parts to achieve the gripping surface to operate this machine skill operator.
6	observe the vertical milling center (vmc) machine it is computerise numerical control the cutting head in this milling machine is vertical

Weekly summarization of the above activities:

Signature of Student: Amal

Signature of Industrial Supervisor: Kanjay

Week 5 From 18/6/19 To 24/6/19

Expected Work: Study of preventive and breakdown maintenance & safety Practice adopted in industry.

List the Sections of Industry visited and list

- (i) the major machines/plants whose preventive and breakdown maintenance procedures studied.
- (ii) The major safety practices adopted in the industry
- (iii) Organization chart of the industry with responsibilities of different departments/posts

Day	Activities carried out
1	learning to vernier caliper we then learn their sizes there are two types manual, digital.
2	learning and measuring with the snap gauge. A snap gauge limit gauge with permanently.
3	learning and use the thread plug gauge it is used to check acceptance of a nut for small threaded parts the gauge will be double ended.
4	learning about micrometer there are two types of micrometer digital micrometer and manual micrometer.
5	observe the Bench center precision Inspection bench center is a resting device which enable quick and precise.
6	Inspection of jobs Tool Rooms standard rooms for checking various parameter like concentricity radial run-out true turning etc.

Weekly summarization of the above activities:

Signature of Student:

Amuldeo

Signature of Industrial Supervisor:

Saujay

Week 6 : From.. 25/06/19 .. To.. 30/06/19 ..

**Expected Work:** Report writing

List the Sections of Industry visited and list the major manuals/broachers such as operational manual, safety manual, maintenance manual, quality manuals referred/ studied there for preparation of reports.

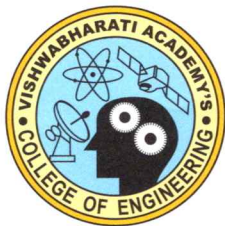

Day	Activities carried out
1	<ul style="list-style-type: none"> <li>• section of industry visited i) centre &amp; facing section. ii) CNC turning section iii) Grinding section iv) grinding &amp; tapping section v) milling section vi) quality section.</li> </ul>
2	<ul style="list-style-type: none"> <li>• operation :- i) Turning &amp; facing ii) turning iii) step turning iv) Grooving v) chamfer vi) Grinding vii) drilling viii) tapping ix) knurling x) milling xi) cross boring.</li> </ul>
3	<ul style="list-style-type: none"> <li>• Safety :- carry out work carefully i) start the machine after closing the guard ii) check the lubrication oil level than start the machine iv) use hand gloves while</li> </ul>
4	<ul style="list-style-type: none"> <li>removing waste from the machine</li> <li>v) Put the vernier micrometer &amp; gauges neatly</li> <li>vi) put the Allen key &amp; spanner</li> <li>vii) wear the safety shoes before starting work</li> </ul>
5	<ul style="list-style-type: none"> <li>• Inspection &amp; Test Instruction</li> <li>i) Every day start the shift &amp; check instrument zero setting</li> <li>ii) check the 1st off on air gauge on</li> </ul>

## Android App Development

Android App Development is the workshop designed by RoboKart group pioneers in this field way back in 2014 and copied by many competitors.

**Android App Development Workshop** mainly focuses on how to use Android OS for building your own Android Application. Only the basic knowledge of programming is required for **Android App Development**, you do not have to be a geek for it! The workshop will start from the basics like designing layouts and building complex layouts. Once the basics of Android are done we will begin with building Apps.

The duration of this workshop will be two consecutive days, with Seven hours session each day in a total of Fourteen hours, properly divided into theory and hand on practical sessions. Compared to many existing platforms, Android is truly open to continued innovation and new experiences because independent developers have almost unlimited access to the platform so they can develop applications never seen before. End users will enjoy a much greater choice of mobile applications to enhance email, texting, web browsing, music, SMS, Broadcast receiver.

The trainers conducting this workshop have relevant experience in the field. They have conducted workshop in IITs, NITs and other premier engineering colleges across India. Our relationship with students continues even after the workshop where we offer online and offline technical support to convert their ideas into reality.

### **What will you learn after attending this Workshop:**

- ❖ Introduction to Android O.S.
- ❖ Eclipse Software skills to develop apps
