VISHWABHARATI ACADEMY'S COLLEGE OF ENGINEERING, AHMEDNAGAR

CHAPTER -1: PREAMBLE

A Green Campus is a place where environmentally friendly practices and education combine to promote sustainable and eco-friendly practices in the campus. The green campus concept offers an institution the opportunity to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to environmental, social and economic needs of the mankind.

Greening the campus is all about sweeping away wasteful inefficiencies and using conventional sources of energies for its daily power needs, correct disposal handling, purchase of environment friendly supplies and effective recycling program. Institute has to work out the time bound strategies to implement green campus initiatives. These strategies need to be incorporated into the institutional planning and budgeting processes with the aim of developing a clean and green campus.

Major Green campus Initiatives:

- Electric powered vehicle Charging Point
- Rain water Harvesting
- Institute community Garden
- Use of LED Lights
- Digital Library/ e-learning center
- Restricted entry for vehicles
- Restricted Parking
- Use of Public transport
- Pedestrian friendly pathway
- Plastic free campus
- Plantation of exotic fruit plants

VISHWABHARATI ACADEMY'S COLLEGE OF ENGINEERING, AHMEDNAGAR

CHAPTER -2: INTRODUCTION TO THE CRITERION

A Green Campus is a place where environmental-friendly practices and education combine to promote sustainable and eco-friendly practices in the campus. The green campus concept offers an institution the opportunity to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to environmental, social and economic needs of the mankind. In VACOE, we practice and maintain the following criteria and policies to make it a pollution free, energy saving green campus.

2.1 GREEN CAMPUS POLICY

1. Restricted entry of vehicles

- All the vehicles of college staff/ faculty members should be getting the emission checking of the vehicle in college campus.
- The college encourages the employees and students to frequently use public transport, bicycles, etc. to limit the emissions.

2. Use of battery powered vehicles

- College Students and Faculty are encouraged to use the Battery-powered vehicles.
- Charging facility for the E-vehicles is provided in the campus at the parking.

3. Pedestrian-friendly pathways

- VACOE campus follows the Pedestrian-friendly pathways in all the buildings.
- Pedestrian-friendly pathways are properly marked with suitable logo/sign.

4. Ban on use of Plastic

- The college is continuously committed to work towards plastic-free campus.
- In the VACOE campus there is complete ban on single-use plastics in class room, labs in the institution's premises.

5. Landscaping with trees and plants

- As per the green practices in the campus VACOE is moving in the direction of a Green Institution in Ahmednagar planting more trees within and outside the campus.
- Medication plants and fruit plants and trees have been planted to help in purifying the atmosphere.

VISHWABHARATI ACADEMY'S COLLEGE OF ENGINEERING, AHMEDNAGAR

2.2 BATTERY POWERED VEHICLES BENIFITS

1. Better for the environment

Less pollution: By choosing to drive an EV we are helping to reduce harmful air pollution from exhaust emissions. An EV has zero exhaust emissions.

Institute has a facility to charge E-Vehicles. This Facility is available for all students and faculties.

2. Health benefits

Reduced harmful exhaust emissions is good news for our health. Better air quality will lead to less health problems and costs caused by air pollution. EVs are also quieter than petrol/diesel vehicles, which means less noise pollution.

3. Safety improvements

Recent findings have shown that several EV features can improve safety. EVs tend to have a lower center of gravity that makes them less likely to roll over. They can also have a lower risk for major fires or explosions and the body construction and durability of EVs may make them safer in a collision.

4. Energy Independency-

On a national level, EVs can help with India's energy Independency. At present, India is highly dependent on other countries for petroleum imports. EVs are easy to power from local and renewable energy sources, reducing our dependence on foreign oil.

VISHWABHARATI ACADEMY'S COLLEGE OF ENGINEERING, AHMEDNAGAR

2.3 GREEN INSTITUTE GARDEN

Green Landscaping with Trees and Plants – the campus is beautifully landscaped and has received appreciation in form of many awards and certificates. Plantation of around 930 plants has been done including a number of exotic plants. A rich variety of flora and fauna predominates the natural landscape of the campus. Exotic fruit trees are also planted in the campus.

2.4 RAIN WATER HARVESTING

Water scarcity is serious problem throughout the world for both urban & rural community. Urbanization, industrial development & increase in agricultural field & production has resulted in overexploitation of groundwater & surface water resources and resultant deterioration in water quality. The conventional water sources namely well, river and reservoirs, etc. are inadequate to fulfill water demand due to unbalanced rainfall. While the rainwater harvesting system investigate a new water source.

In VACOE campus a rain water harvesting system is made. The runoff from the terrace of the college building is channelized into a recharge well located near the building of the academic block. The runoff from the unpaved area is intercepted at a collection trench. From here the runoff eventually drains into an abandoned open well, which facilitates groundwater recharge.

2.5 DIGITAL LIBRARY/ E-LEARNING CENTRE

Vishwabharati Academy's College of Engineering Ahmednagar is equipped with a digital library. The user can get his/ her information on his own computer screen by using the Internet. Actually, it is a network of multimedia system, which provides fingertip access. A brief summary of e-learning resources is listed below

| | |
|-------------------------------|-----------|
| Online Journals (Engineering) | 1500 Plus |
| e-Books | 5000 Plus |

Benefits of e- learning center are:

1. No physical boundary: The user of a digital library need not to go to the library physically, people from all over the world could gain access to the same information, as long as an Internet connection is available.

VISHWABHARATI ACADEMY'S COLLEGE OF ENGINEERING, AHMEDNAGAR

2. Round the clock availability: Digital libraries can be accessed at any time, 24 hours a day and 365 days of the year

3. Multiple accesses: The same resources can be used at the same time by a number of users.

4. Structured approach: Digital library provides access to much richer content in a more structured manner i.e. we can easily move from the catalog to the particular book then to a particular chapter and so on.

5. Information retrieval: The user is able to use any search term bellowing to the word or phrase of the entire collection. Digital library will provide very user-friendly interfaces, giving click ableaccess to its resources.

6. Preservation and conservation: An exact copy of the original can be made any number of times without any degradation in quality.

7. Space: Whereas traditional libraries are limited by storage space. digital libraries have the potential to store much more information, simply because digital information requires very little physical space to contain them. When the library had no space for extension digitization is the only solution.

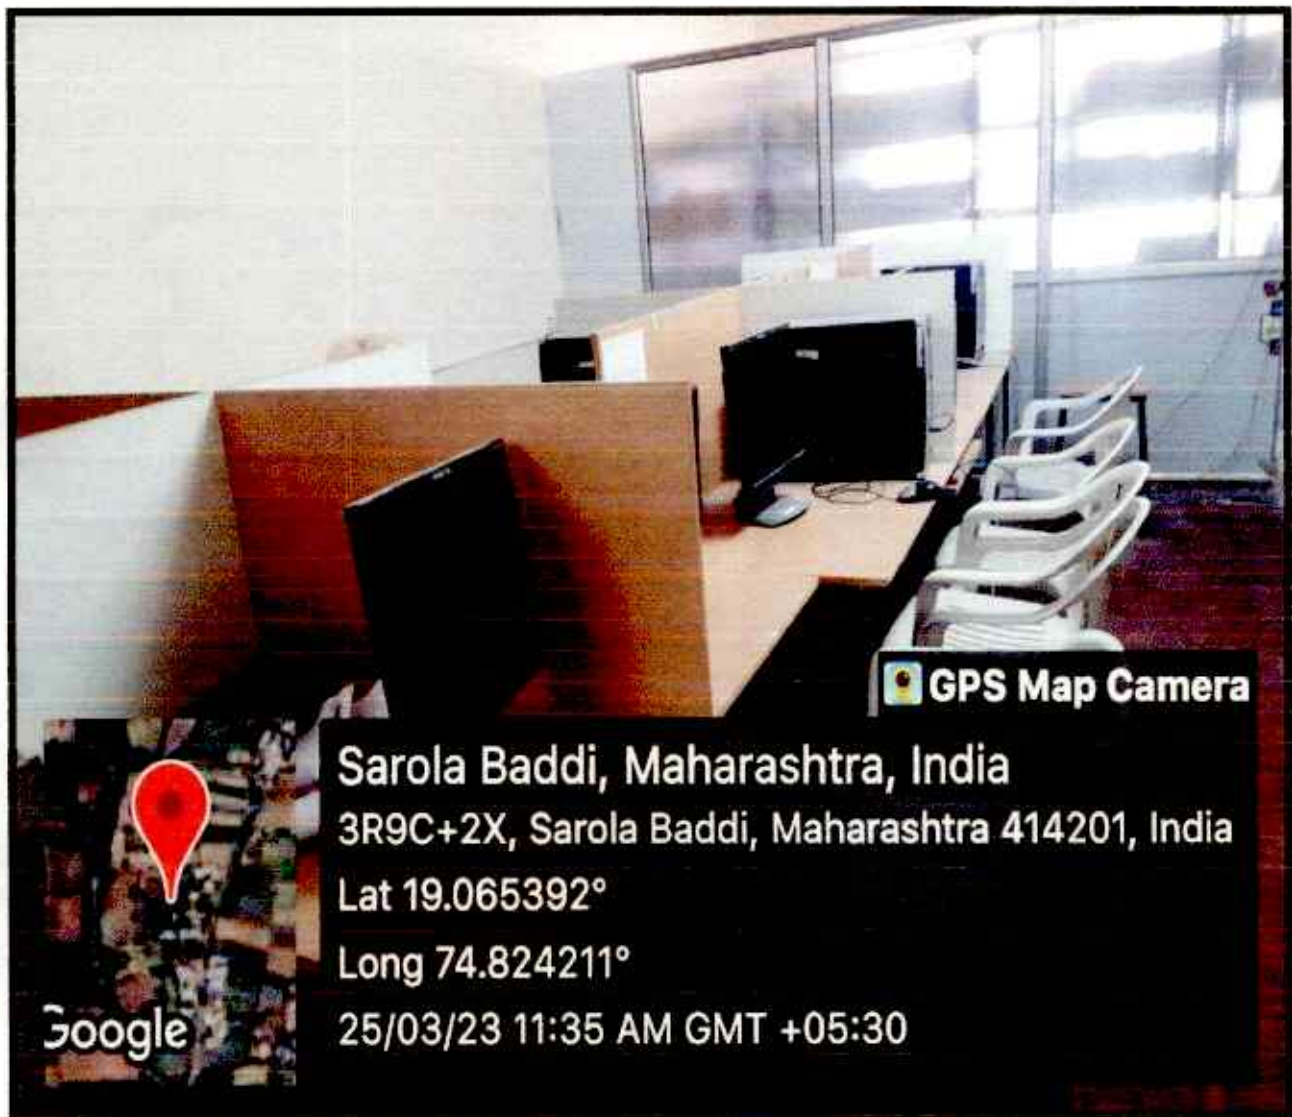

8. Networking: A particular digital library can provide the link to any other resources of other digital library very easily thus a seamlessly integrated resource sharing can be achieved.

VISHWABHARATI ACADEMY'S COLLEGE OF ENGINEERING, AHMEDNAGAR

9. Cost: The cost of maintaining a digital library is much lower than that of a traditional library. A traditional library must spend large sums of money paying for staff, book maintains, rent, and additional books. Digital libraries do away with these fees.

2.6 USE OF LED

As a step towards energy saving, total lightings of class rooms, labs and canteen are replaced with LED Lights.

The advantages of LED lights are as given below:-

- Long life.
- Energy efficiency.
- High brightness and intensity.
- Exceptional colour range.
- Low radiated heat.
- Reliability.
- Instantaneous illumination.
- Directional lighting.

VISHWABHARATI ACADEMY'S COLLEGE OF ENGINEERING, AHMEDNAGAR

18
Dhany

VISHWABHARATI ACADEMY'S COLLEGE OF ENGINEERING, AHMEDNAGAR

2.7 USAGE OF PUBLIC TRANSPORT

Public Transport – the institute provides bus services from various points in and around the city to college campus, to all faculty members and staff. The service is available for the students at fixed timings to travel between campuses and public places. Besides this, more than 80% of students use public transport to travel to and from college every day.

Image: VACOE buses for transport

Shony 19

VISHWABHARATI ACADEMY'S COLLEGE OF ENGINEERING, AHMEDNAGAR

2.8 PEDESTRIAN FRIENDLY PATHWAY:

All around the campus of VACOE, paving blocks pedestrian friendly pathways have been constructed for smooth commuting of students, faculty and other staff members of the institute. These pathways are maintained on regular basis for keeping them free of mud, dust and any other vegetational growth. On either side of the pathways, proper concrete boundaries are made and painted. These well-maintained pathways add the beauty of the VACOE campus.

Pedestrian Friendly pathways

Shing

VISHWABHARATI ACADEMY'S COLLEGE OF ENGINEERING, AHMEDNAGAR

Pedestrian Friendly pathways

Dhargi

VISHWABHARATI ACADEMY'S COLLEGE OF ENGINEERING, AHMEDNAGAR

2.9 PAPERLESS OFFICE

All offices work on paperless concept by of all the notices and information through mail, Google groups, WhatsApp Groups, Googleclassrooms, etc. as much as possible. High speed Wi-Fi facility is also provided for this. Other practices like, re-use of one-sided paper for notes, sketches, rough work, rough printouts, etc.; cashless transactions, and utilizing multi user printer at central administrative locations of the Institute office also aims at reducing the use of papers.

2.10 PLANTATION OF EXOTIC FRUIT PLANTS

The campus is beautifully landscaped and has received appreciation in form of many awards and certificates. Plantation of around 1000 plants has been done including a number of exotic plants. A rich variety of flora and fauna predominates the natural landscape of the campus. Exotic fruit trees are also planted in the campus.

VISHWABHARATI ACADEMY'S COLLEGE OF ENGINEERING, AHMEDNAGAR

2.11 VEHICLE RESTRICTED ENTRY

Restricted entry of vehicles on a college campus has many advantages, including increased security, improved traffic flow, increased physical exercise, a greener environment, and improved safety.

Environmentally friendly:

- Restrictions on traffic can help to cut down on the toxic emissions that cause air and noise pollution it is a more ecologically sustainable option.
- A greener ecosystem can be supported by encouraging alternative forms of transportation like walking, cycling, or public transportation. it is part of a broader lifestyle choice.

Safety:

- Restricting vehicle access to college campuses can improve staff, teacher, and student security.
- Particularly in heavy traffic places like parking lots and pedestrian walkways, it lessens the possibility of collisions involving vehicles and pedestrians.

Promote Physical Activity:

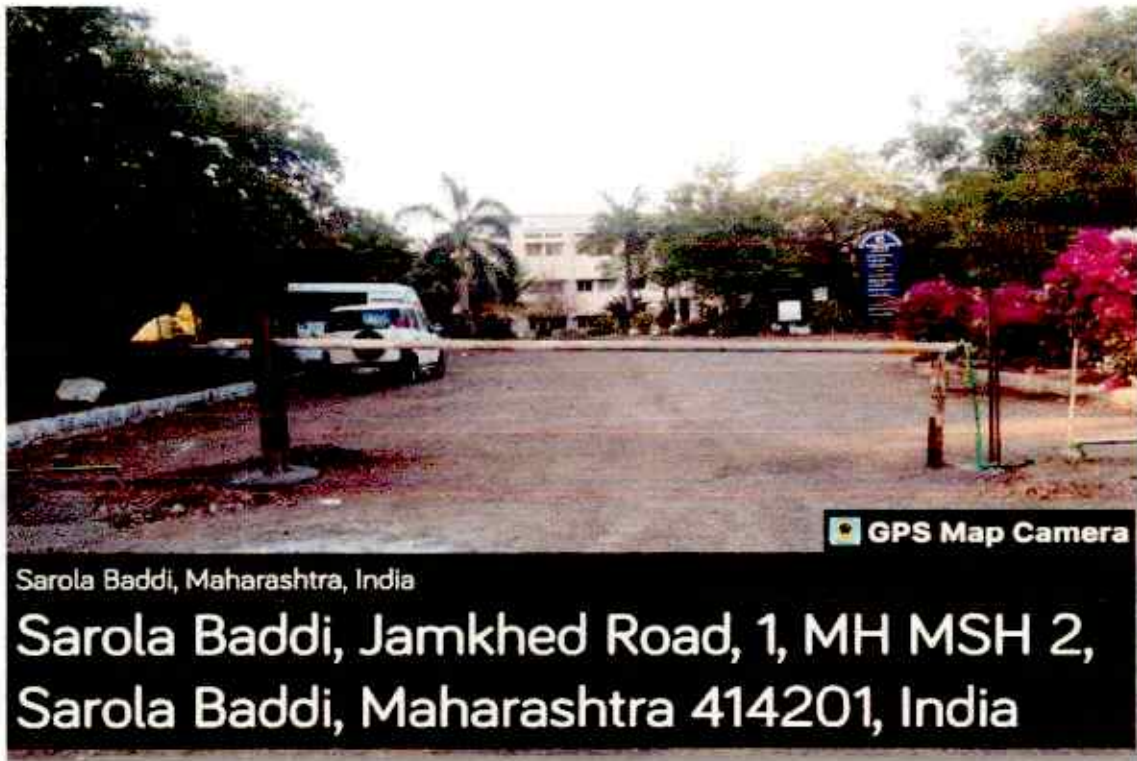

- Restricting vehicle access can encourage staff, teachers, and students to be active. Getting around campus by walking or riding can help you stay physically fit every day.

Increased Traffic Flow:

- Especially during rush hours, restricting car entry can increase traffic within the campus.
- It eases traffic in the parking lots, shortens the time it takes to locate parking, and facilitates emergency vehicles' access to the campus.

VISHWABHARATI ACADEMY'S COLLEGE OF ENGINEERING, AHMEDNAGAR

7.1.3 Introduction

Vishwabharati academy's college of Engineering has deep concern to protect environment, health and well-being through implementation of effective waste management practices such as segregation, recycling, and composting. Awakening to control 'throw-away' life style and grow consciousness of generating less waste among students, staff and faculty members has also been adopted. Our house keeping staff, gardeners and sweepers help in segregation of waste.

7.1.3.1 Solid Waste Management

- It is segregated at source and collected by Safai Karmachari to dispose off properly to the dumping yards.
- Waste like plastic, metals, glass, cardboard, newspaper and stationery are systematically collected, segregated and sold to authorize vendors for its recycling.
- College adopts almost paperless concept by digitization of office procedures through electronic means via What's App as group, email and Google classroom; thus, reducing paper-based waste and reduce carbon dioxide emissions.
- Use of paper printed on one side is encouraged in sending fax, print drafts before final document, meeting minutes, memos and notes in office practices as environmentally-preferred alternative to waste management to reduce pollution.
- Students are encouraged to use waste paper and newspaper in creative practices during various extracurricular activities.
- Biodegradable kitchen waste from Canteen, horticultural waste such as dried leaves, twigs, and plant clippings is collected from all around the campus and used for vermicomposting. Vermicompost so produced is enriched with water-soluble nutrients and is used in organic farming.
- Dustbins have been installed throughout campus for waste segregation.
- Tested Cube Blocks were used as a filler material while preparing foundations of Equipment's in various Laboratories of Civil and Mechanical Engineering Departments.

7.1.3.2 E-Waste Management

Electronic gadgets are repaired for minor defects by our lab technicians to ensure its optimum utilization.

- The electronic waste components such as computer system components, CPU and ICs are used in practical demonstration to our students. Such components are also used for demonstration in workshops organized by VACOE for students of nearby schools.
- Some of the reusable electronic components like resistors, capacitors, inductors, diode, transistor, thermistors etc. are removed from the gadgets and used by students in making projects in DIY.
- Student also made aware of E-Waste issues and its safe disposal

DIY project by Students using E-waste

VISHWABHARATI ACADEMY'S COLLEGE OF ENGINEERING, AHMEDNAGAR

Scrap E-Waste

Repaired PC for Reuse

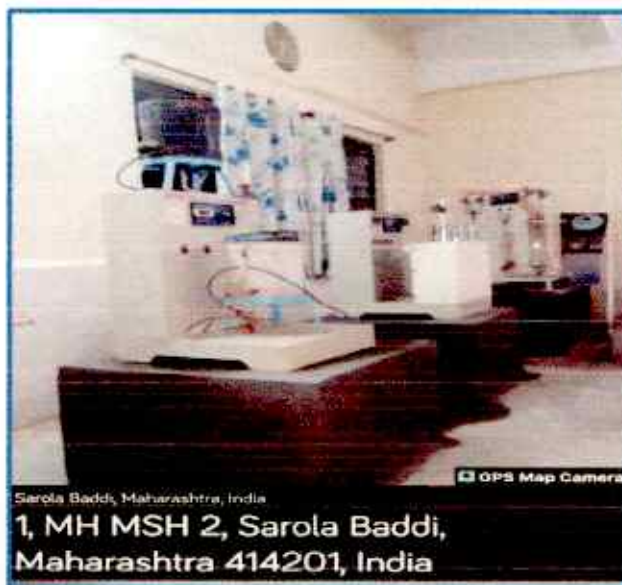

VISHWABHARATI ACADEMY'S COLLEGE OF ENGINEERING, AHMEDNAGAR

- Paper waste is sold out for its recycling in paper industry.
- Tested Concrete cubes as a waste of Concrete Lab are used as filler materials in preparing foundations for equipment.
- Vermicomposting used to recycle solid waste, peels of vegetable and food waste.
- Liquid Waste after proper treatment used in irrigation.
