About Vishwabharati Academy's

Vishwabharati Academy Trust was founded by a team of professionals and technocrats with a vision to deliver quality technical education to rural India. With over 30 years of industrial experience, the trust established Vishwabharati Academy's College of Engineering at Ahilyanagar in 2007. Since then, the institution has focused on providing affordable, accessible education and producing skilled, industry-ready engineers. In response to the growing demand for technical diploma education, the Academy launched Polytechnic courses in 2012, further extending its commitment to early-stage technical skill development among rural youth. The institution embraced academic transformation by involving experts from industry and top academic institutions, aiming to enhance its academic approach and infrastructure. This led to the launch of Vishwabharati Academy's College of Pharmacy In 2023, offering B. Pharmacy and D. Pharmacy courses. Expansion continued in 2024 with the establishment of the College of Computer Science and Management, introducing BBA and BCA and MBA programs. Making another step toward higher education excellence. Vishwabharati Academy's Group of Institutions continues to grow as a hub of innovation and inclusive, quality education, making learning accessible to every aspiring student.

With state-of-the-art infrastructure, experienced faculty, & a student-focused approach, Vishwabharati Academy is the ideal destination for those seeking a strong academic foundation and career readiness. We invite students and parents to be a part of our journey and shape a successful future with us.
