Departments of Computer Engineering and Electronics & Computer Engineering Organized Guest Lecture on “Automation in Engineering”

The Department of Computer Engineering and the Department of Electronics and Computer Engineering jointly organized a Guest Lecture on “Automation in Engineering” on 14th October 2025 at the Seminar Hall.

The session was delivered by Ms. Poonam Chaudhari, an eminent professional in the field of automation and advanced engineering technologies. The objective of the lecture was to enhance students' understanding of automation concepts, current industry practices, and the role of emerging technologies in modern engineering applications.

During the session, Ms. Chaudhari discussed the growing importance of automation across various sectors and its impact on productivity, efficiency, and innovation. She also emphasized the need for engineers to develop multidisciplinary skills to adapt to the evolving technological landscape.

The lecture concluded with an interactive discussion, where students enthusiastically engaged with the speaker, gaining valuable insights into practical aspects of automation. The session was well-received by faculty members and students alike for its informative and industry-oriented content.
